## DETAILED ACTION

### ***Specification***

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

The disclosure is objected to because of the following informalities:

Appropriate correction is required.

Paragraph [0001] should be updated to reflect the patent status of application 10/303,373.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3644

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

**Claims 1-9 are rejected** under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, 5-7, 10-13 and 15 of U.S. Patent No. 6,477,804 (Weder et al.) in view of 6,341,446 (Weder et al.).

Regarding instant independent **claim-1**:

The sleeve of the instant invention as cited in claim-1 is recited in conflicting '804 claims 1,5,13 and 15, and a plant package as cited in instant claim-1 is recited in the secondary reference '446.

Specifically, conflicting '804 claim-1 recites a sleeve in a flattened condition, a sidewall portion and a gusset portion having a curved inner portion, as cited in the instant claim-1; conflicting claims 5 and 15 recite tapered and frustoconical shape as cited, and conflicting claim-13 recites a convexly curved lower end as cited.

The secondary reference claim-1 recites a variant of the instant sleeve as a plant package as cited in the instant independent claim-1.

Instant **claim-2** is encompassed by conflicting '804 claim-2.

Instant **claims 3 and 8** are encompassed by conflicting '804 claim-10.

Instant **claim-4** is encompassed by conflicting '804 claim-11.

Instant **claim-5** is identical to conflicting '804 claim-12.

Instant **claim-6** is encompassed by conflicting '804 claim-6.

Instant **claim-7** is identical to conflicting '446 claim-10.

Instant **claim-9** is encompassed by conflicting '804 claim-7.
